Demonstrated Functionality

All of the functional requirements detailed in sections 3.0 - 4.3 of the requirements document are represented within these slides with the following exceptions:

- The requirements for the Calendar of Events and Headlines have not been fully defined and therefore not all of the functionality associated with those features have been shown.
- The specific URL's and categories of the Links sections have not been enumerated due to space limitations
- The interface for configuring the Autonomy search engine is not shown as it will not be seen by the end user and we are dependent upon Autonomy to provide this interface
